

Product name:	LED bar stage KTV host MC DJ station
size :	1.2M/1.5M/1.9M

1.2M	1.5M	1.8M
Movable 1.2m DJ table Material: wrought iron paint and acrylic Light source: LED Lighting Color: Red Blue White Blue Symphony 358 Mode Light strip parameters: 5V Packing method: moisture-proof packing wooden frame Size: 1200mm×940mm×750mm Dimensions after packing: 1300mmx1040mm x 850mm Net weight: 55KG Gross Weight: 65KG Battery: 30000mAh	Movable 1.5m DJ table Material:wrought iron paint and acrylic Light source: LED Lighting Color: Red Blue White Blue Symphony 358 Mode Light strip parameters: 5V Packing method: moisture-proof packing wooden frame Size: 1500mm×940mm×750mm Dimensions after packing: 1600mmx1040mm x 850mm Net weight: 65KG Gross weight: 80KG Battery: 30000mAh	Movable 1.8m DJ table Material: wrought iron paint and acrylic Light source: LED Lighting Color: Red Blue White Blue Symphony 358 Mode Light strip parameters: 5V Packing method: moisture-proof packing wooden frame Size: 1900mm×940mm×750mm Dimensions after packing: 2000mmx1040mm x 850mm Net weight: 85KG Gross weight: 95KG Battery: 30000mAh

REXFOS Pumps is an international pump company which is manufacture in China. REXFOS is technology driven and market-oriented. We offer products for water treatment, pulp & paper, power, chemical, oil & gas and general industries. Since 1986.

Dc Stock Pump Program

At REXFOS we have a wide range of on-stock norm pumps (e.g. water treatment pumps). This makes it possible to deliver standard norm pumps against very competitive prices in less than 5 days. Ask for more information.

Standard Product Lines

REXFOS has a wide range of standard pump design solutions ready for reproduction at customer specifications. Some are suitable to drop in by replacing KSB, Andritz, Sulzer Pumps. These vary from end-suction, double -suction, vertical-sump, split-case and multi-stage pumps to a range of API products. Ask for more information.

Engineered Products

REXFOS's in-house hydraulic specialists are able to engineer custom-made pump solutions for your application. It applies same program of Flowserve CTG technology. A group of experienced engineers likes to tell you more about the possibilities. Ask for more information.
